

# Checklist

## *Return to Cricket Blast*

This checklist has been developed to support Cricket Blast centres returning under their respective Government COVID-19 restrictions. The key principle for all programs must be **'Get in, Play, Get out'**.

### ***EQUIPMENT SHARING***

Always follow your state/territory government guidance to understand whether sharing is permitted. Where guidance is not provided by your state/territory government, Cricket Australia strongly recommends that people avoid sharing equipment where possible.

### ***STRICTLY NO CONTACT***

There is to be no contact at Blast sessions between Cricket Blasters, coaches, volunteers. This includes high fives, shaking hands and other physical contact.

### ***PHYSICAL DISTANCING***

Where possible, Cricket Blasters are to observe physical distancing requirements of 1.5m during a Blast session. Coordinators are encouraged to remove or modify activities where Cricket Blasters cannot safely practice physical distancing. Coaches, volunteers and parents must observe physical distancing requirements of 1.5 at all times.

### ***WELCOME ASSEMBLY BRIEFING BY COORDINATORS***

Coordinators must reiterate critical points to all Blasters as they relate to:

- Importance of no contact & physical distancing
- Sharing of equipment

### ***HYGIENE PROTOCOLS ARE IN PLACE***

Centre coordinators understand the requirement to:

- Disinfect all equipment after each session. This includes cones, stumps, balls and any other equipment used by Blasters
- Where a session has multiple groups, assign equipment to respective groups for the duration of the session, ensuring it is not shared between groups.

### ***SAFE ENTRY & EXIT OF CRICKET BLASTERS FROM SESSIONS***

Plan on having breaks of 10-15 minutes between Blast squads to minimise crossover.

### ***OBSERVE LIMITS OF BLASTERS PER BLAST SQUAD***

Ensure all Cricket Blasters, coaches and volunteers understand there is to be no more than eight (8) Blasters in any activity at any time.

Cricket Australia strongly recommends that all participants, coaches, volunteers and parents utilise the COVIDSAFE app to trace the spread of COVID-19
