

Weet-Bix MyCricket – NEW Website Template

The new and improved MyCricket Club Website template is now publically available. The new website layout has an improved design and enhanced functionality.

New features and functionality include:

- ✚ New Layout Manager which gives clubs/associations greater flexibility to add and edit content
- ✚ Greater viewing of results, statistics and fixtures
- ✚ Horizontal menu bar
- ✚ Scrolling News rotator with 300x300 image preview
- ✚ Improved integration with Facebook, Twitter and YouTube
- ✚ Additional design services (banners, logos, site layout etc.) will be made available through or online partner InteractSport

Please view the following website for an idea of what you can expect to see:

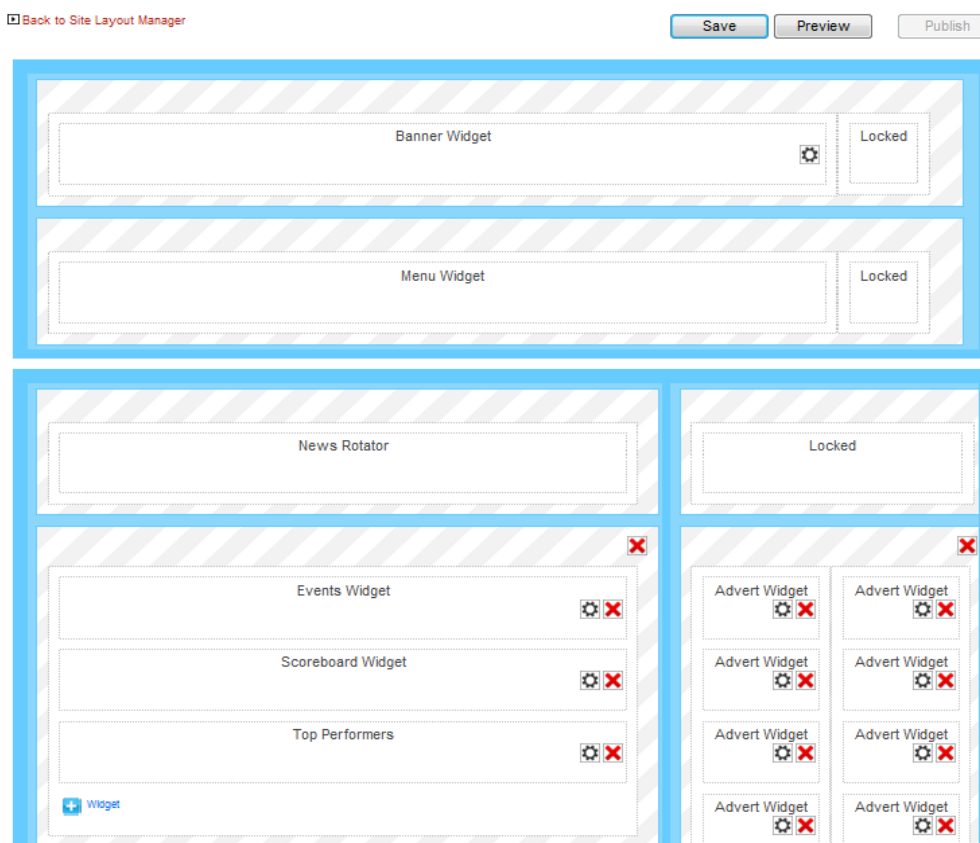

<http://millparkcc.vic.cricket.com.au>

You will already have access to the new 'Layout Manager' area allowing you to setup and preview your website. Once you are happy with your new site, just [submit a support request](#) and we can switch you over to the new template (no changes will be made to any existing MyCricket websites until we do so).

Weet-Bix MyCricket – NEW Website Template

Layout Manager

- Easily create and edit your website homepage and non-home pages using the new Layout Manager functionality
- Style your site with a range of colour schemes and fonts

Widgets

Select from a range widgets to place on your homepage and non-home pages:

For assistance with setting up your new club website please read the [Website Layout Manager - Help Guide](#).
